CAPABILITIES

Pdc Glass

Pdc Glass revolutionizes the shower from just a functional space—into a paradise. With a broad spectrum of custom capabilities, Pdc supports designs for residential as well as commercial usage. The advantages are clearly unique and the only limitation to its possibilities is the imagination.

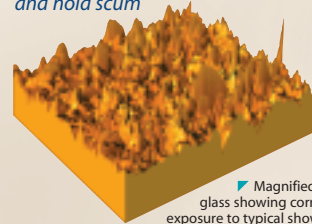

- Full Mitre Options from 2° to 60°
- Flat Polish up to 1/2"
- Automated Hole Drilling and Cut-Outs via CNC
- Complete Custom Fabrication Available
- All Wrapped and Packaged in Nitto

PROTECTION

ShowerGuard Glass

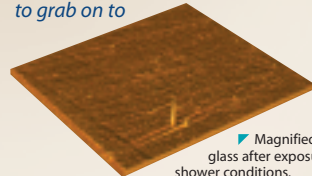

ShowerGuard's surface is protected during manufacturing through an ion beam process. ShowerGuard's patented technology permanently seals the glass surface, helping to stop corrosion before it starts.

Standard glass corrodes, leaving it full of tiny pits and ridges that attract and hold scum

➤ Magnified standard shower glass showing corrosion after exposure to typical shower conditions.

ShowerGuard glass resists corrosion, so scum has nothing to grab on to

➤ Magnified ShowerGuard glass after exposure to typical shower conditions.

Keeping your ShowerGuard glass clean is easy. A soft cloth or wet sponge and most common household cleaners are all you need to keep it looking beautiful. As with all glass, avoid harsh abrasive brushes or cleaners that could scratch the surface.

ShowerGuard glass is covered by a 10-year limited warranty.

For simple care instructions, a list of approved cleaners and warranty information, visit ShowerGuardGlass.com.
